

SERVICE LIKE NO OTHER

BIRMINGHAM & MONTGOMERY ALABAMA BRANCHES
888.313.6262 | kanawhascales.com

REGIONAL SERVICE AVAILABLE 24/7

Our Alabama branches serve customers in Georgia, Mississippi, Tennessee, and the Florida panhandle as well as Alabama. Emergency service and technical phone support are available 24/7.

TRAINING

Our service technicians are factory trained and state registered where applicable. They are also required to participate in the KSS Service Technician Training Program. This program was designed and developed to ensure that our technicians are knowledgeable in all aspects of the weighing industry.

CALIBRATION AND REPAIR

KSS provides standard repairs, emergency repair service, and regularly scheduled maintenance contracts. All calibrations are performed to NIST Handbook 44 standards to ensure that your scales are performing accurately.

LOAD TESTING

Load testing is required by safety regulations, national standards, and manufacturers to ensure workplace safety for employees and equipment. KSS can provide weights, sleds, and riggings for all testing and ensure all load tests are performed properly and in compliance with OSHA 1910.179 or applicable ANSI requirements.

HOPPER/TANK/SILO SCALES

Our hopper, tank, and silo scales offer a wide range of capabilities, including fast loading and unloading, rugged and reliable load cell technology. Weigh dry or liquid material in your batching and blending bins with greater accuracy than possible with conventional volumetric measurement.

TRUCK SCALE DATA COLLECTION SYSTEMS/SCALESIDE HARDWARE

We offer a full line of attended or fully automated systems for your shipping or receiving operations...make your truck scale operations more efficient and the data readily available in meaningful and timely reports!

FORKLIFT SCALES

Efficient material handling is required to remain profitable. KSS offers the ability to weigh on the move with forklift and pallet jack scales that retrieve accurate weight resulting in accurate freight charges and regained revenue.

LAB BALANCES AND COUNTING SCALES

Weigh in increments from micro grams to kilograms with precision, accuracy and reliability with lab balances and counting scales from KSS. Portable and compact, these instruments are programmable and customizable for any application.

FLOOR SCALES AND INDICATORS

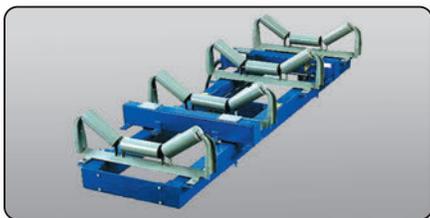

From rugged, dependable floor scales to advanced programmable indicators, KSS offers everything to meet the varied needs of our customers.

TRUCK AND RAIL SCALES

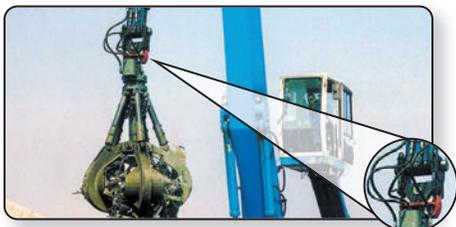

Measure incoming materials and outgoing product with equipment from a broad range of truck and rail scales. Our rugged truck and rail scales assure accurate cost and revenue control.

< *ATTENDED/UNATTENDED DATA COLLECTION OPTIONS AVAILABLE.*

BELT CONVEYOR SCALES

When it comes to belt scales, nobody knows dynamic weighing systems better than KSS. Proper application and installation of quality equipment is the key to a successful project.

MATERIAL HANDLING SYSTEMS

Whether you use magnet or grapple attachments to move materials, KSS has pioneered the integration of weigh-in-motion technology with industrial equipment to provide customers the ability to pick up, weigh, and deliver materials in one smooth motion.

< *HEAVY DUTY SCALE HOUSING PROTECTS LOAD CELLS, ASSURING ACCURATE AND RELIABLE WEIGHING.*

SERVICE LIKE NO OTHER
