

FOOD & BEVERAGE INDUSTRY

Checkweighers, batching systems, floor scales, and more for efficient and profitable food manufacturing.

We help your operation adhere to FDA and USDA standards and more. Batching, portioning, conveying, contaminant detection, and packaging solutions are just a few solutions Kanawha Scales & Systems can provide to food and beverage operations. Scales and equipment built to be cleaned and sanitized often are also critical to food production companies and we offer many options. With weighing and automation solutions from KSS, food and beverage producers improve product quality, reduce waste, reduce downtime – and ultimately – increase profits.

24/7 SERVICE

KSS provides emergency repair and maintenance service 24 hours a day, 7 days a week, year round. Technical phone support is provided any time you call, every time you call.

REPORTING

WebView+ gives you web access to your scale info, repair histories, and calibration certificates. Download custom reports, determine budgetary needs, and place service calls online with our reporting portal.

CALIBRATION & REPAIR

Standard repairs, emergency repairs, and regularly scheduled contractual maintenance - we'll be there. Calibrations are performed to NIST Handbook 44 standards to ensure your scales are accurate.

TECHNICIAN TRAINING

Our service technicians are factory trained and state registered where applicable. They participate in our intense training program, designed to ensure they are knowledgeable in all aspects of the weighing industry.

Turn investment into profit! Kanawha Scales' food and beverage industry solutions make a measurable difference.

CHECKWEIGHERS

Checkweighers make manufacturing, sorting, and food-processing more efficient. Most often, checkweighers weigh products automatically as they move along a conveyor. Many offer automated weighing as product is in motion and incorporate sorting/rejection based on package weights.

BATCHING & FILLING SYSTEMS

By eliminating the manual weighing and measurement of each ingredient, your operation becomes more precise and less time consuming. Automation with the right batch weighing equipment and systems for your process ensures consistency, while greatly reducing production time, waste, and money in the long run.

FLOOR SCALES & INDICATORS

From rugged, dependable floor scales to advanced programmable indicators, KSS offers everything to meet the varied needs of our customers. Key to the food industry is the ability to wash down and sanitize equipment. We offer floor scales made for food production.

METAL DETECTION, X-RAY INSPECTION & MOISTURE ANALYSIS SYSTEMS

Metal detectors and xray inspection systems find foreign bodies in products and prevent contamination as well as production breakdowns, and repairs. Moisture monitoring is key to consistent product texture and quality.

TRUCK SCALES, DATA COLLECTION SYSTEMS & SCALESIDE HARDWARE

We offer many rugged and efficient truck scale brands, and a full line of attended or fully automated systems for your shipping or receiving operations. Make your truck scale operations more efficient and the data readily available in meaningful and timely reports!
