

WASTE & RECYCLING INDUSTRY

Forklift scales, truck scales, and custom software for efficient and profitable waste management.

Weighing in the waste sector means heavy duty products and equipment in harsh environments. For waste hauling and transfer, and for recycling operations, extreme accuracy and durability are paramount. Our weighing experts can pair truck scales with the right peripheral equipment and automated ticketing systems to increase both your throughput and safety. Record, access, and report data; and make it all easy for your people to use! Ask us about the ways you can control and automate waste weighing processes.

24/7 SERVICE

KSS provides emergency repair and maintenance service 24 hours a day, 7 days a week, year round. Technical phone support is provided any time you call, every time you call.

REPORTING

WebView+ gives you web access to your scale info, repair histories, and calibration certificates. Download custom reports, determine budgetary needs, and place service calls online with our reporting portal.

CALIBRATION & REPAIR

Standard repairs, emergency repairs, and regularly scheduled contractual maintenance - we'll be there. Calibrations are performed to NIST Handbook 44 standards to ensure your scales are accurate.

TECHNICIAN TRAINING

Our service technicians are factory trained and state registered where applicable. They participate in our intense training program, designed to ensure they are knowledgeable in all aspects of the weighing industry.

Turn investment into profit! Kanawha Scales' waste & recycling weighing solutions make a measurable difference.

TRUCK SCALES, DATA COLLECTION SYSTEMS & SCALESIDE HARDWARE

We offer many rugged and efficient truck scale brands, and a full line of attended or fully automated systems for your shipping or receiving operations. Make your truck scale operations more efficient and the data readily available in meaningful and timely reports!

FORKLIFT SCALES

Efficient material handling is required to remain profitable. KSS offers the ability to weigh on the move with forklift and pallet jack scales that retrieve accurate weight, resulting in accurate freight charges and regained revenue.

FLOOR SCALES & INDICATORS

From rugged, dependable floor scales to advanced programmable indicators, KSS offers everything to meet the varied needs of our customers.

RADIATION DETECTION SYSTEMS

You need a system to reliably detect any low level radioactive sources before they enter or exit your facility. With RadComm radiation detection systems you can protect your business, your people, and the environment.

CUSTOM APPLICATIONS

Our expertise exceeds industrial scales and weighing applications. Our Technical Services team specializes in process control, material handling, and data management applications. Around the world, we deliver customized solutions that ensure efficient and cost-effective ways of doing business.
