# STEEL, SCRAP & RECYCLING

**Scales and custom solutions for efficient and profitable scrap recycling and steel manufacturing.**

Scrap recycling and steel manufacturing operations depend on scales as the basis for transactions. KSS provides rugged truck scales, rail scales, floor, and bench scales that are legal for trade and provide accurate weights for pricing products. To help you prevent costly radioactive contamination of your scrap yard, steel plant, equipment, product, and personnel, we offer top rated radiation detection systems.

### 24/7 SERVICE

KSS provides emergency repair and maintenance service 24 hours a day, 7 days a week, year round. Technical phone support is provided any time you call, every time you call.

### REPORTING

**WebView+** gives you web access to your scale info, repair histories, and calibration certificates. Download custom reports, determine budgetary needs, and place service calls online with our reporting portal.

### CALIBRATION & REPAIR

Standard repairs, emergency repairs, and regularly scheduled contractual maintenance - we'll be there. Calibrations are performed to NIST Handbook 44 standards to ensure your scales are accurate.

### TECHNICIAN TRAINING

Our service technicians are factory trained and state registered where applicable. They participate in our intense training program, designed to ensure they are knowledgeable in all aspects of the weighing industry.

**Turn investment into profit! Kanawha Scales' scrap processing and steel manufacturing weighing solutions make a measurable difference.**

#### **TRUCK SCALES, DATA COLLECTION SYSTEMS & SCALE SIDE HARDWARE**

We offer many rugged and efficient truck scale brands, and a full line of attended or fully automated systems for your shipping or receiving operations. Make your truck scale operations more efficient and the data readily available in meaningful and timely reports!

#### **RADIATION MONITORING**

You need a system to reliably detect any low level radioactive sources before they enter or exit your facility. With RadComm radiation detection systems you can protect your business, your people, and the environment.

#### **BELT SCALES**

Weigh and measure the flow rate and production of materials in-motion, assuring that you are meeting production output goals and experiencing no downtime for weighing. KSS can customize and integrate belt scales and accompanying systems specifically to your needs, giving you the ability to measure flow rate and total production.

#### **WHEEL LOADER SCALES**

Wheel loader scales provide onboard weighing to improve your efficiency in loading accurately and hauling legally. These heavy-duty onboard scales and our related systems work together to track the loading of any transfer vessel. They are accurate, dependable, and convenient.

#### **CUSTOM APPLICATIONS**

Our expertise exceeds industrial scales and weighing applications. Our Technical Services team specializes in process control, material handling, and data management applications. Around the world, we deliver customized solutions that ensure efficient and cost-effective ways of doing business.
