## METROLOGY & INSTRUMENT CALIBRATION

**Your Essential Instruments & Gages Calibrated to ISO/IEC 17025 Standards**

Our highly skilled techs perform calibrations, testing or repairs at your site or in our climate-controlled lab. To ensure your high standards are met every time, our company is ISO certified and our technicians receive extensive manufacturer training, in-house specialty training, as well as OSHA/MSHA safety training.

We provide calibration services per ISO/IEC 17025, Handbook 44 and custom procedures to meet your QA/QC requirements. We also offer free plant scale and instrument surveys.

### 24/7 SERVICE

KSS provides emergency repair and maintenance service 24 hours a day, 7 days a week, year round. Technical phone support is provided any time you call, every time you call.

### REPORTING

WebView+ gives you web access to your scale info, repair histories, and calibration certificates. Download custom reports, determine budgetary needs, and place service calls online with our reporting portal.

### CALIBRATION & REPAIR

Standard repairs, emergency repairs, and regularly scheduled contractual maintenance - we'll be there. Calibrations are performed to NIST Handbook 44 standards to ensure your scales are accurate.

### TECHNICIAN TRAINING

Our service technicians are factory trained and state registered where applicable. They participate in our intense training program, designed to ensure they are knowledgeable in all aspects of the weighing industry.
