PYC BALL CALIBRATION

Your Essential Instruments & Gages Calibrated to ISO/IEC 17025 Standards

Our Metrology Lab now has the capability to calibrate Pyc Balls or Pycnometer Balls used in the Oil & Gas industry.

No longer will our customers need to ship Pyc Balls across the country for calibration and then wait a ridiculous amount of time only to get back a less than acceptable calibration product.

Our highly skilled techs perform calibrations, testing or repairs at your site or in our climate-controlled lab. To ensure your high standards are met every time, our company is ISO certified and our technicians receive extensive manufacturer training, in-house

BRAD YOUNG — METROLOGY LAB MANAGER — BRAD.YOUNG@KANAWHASCALES.COM

KSS Wheeling - 243 West Alexander Rd, Valley Grove, WV 26060 - 800.888.0840

TEMPERATURE

- Meters
- Thermocouples
- Ovens
- Controllers
- Chart Recorders
- Temperature Chambers

DIMENSIONAL

- Micrometers
- Calipers
- Gage Blocks
- Rules
- Length Standards

GAGE SALES - All Major Brands

- Fluke
- Starrett
- Altec
- Mitutoyo
- Ametek
- Milwaukee
- Crystal
- Omega
- Ashcroft
- Wika
- Druck
- Joffra

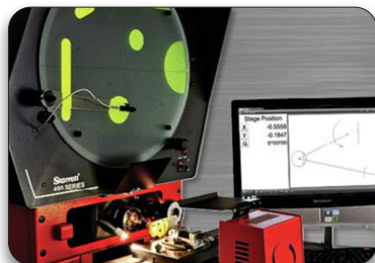

ELECTRICAL

- Multimeters
- Clamp Meters
- Process Calibrators
- Loop Calibrators
- Insulation Testers.

PRESSURE

- Pressure Gages
- Vacuum

MISCELLANEOUS

- Multimeters
- Pycnometers
- Clamp Meters
- Process Calibrators
- Loop Calibrators
- Insulation Testers
