

METROLOGY & INSTRUMENT CALIBRATION

Your Essential Instruments & Gages Calibrated to ISO/IEC 17025 Standards

Partner with us for dependable, high-quality calibration solutions that support your commitment to excellence. Ensure the accuracy and reliability of your instruments with our ISO/IEC 17025 accredited calibration services. We offer both on-site calibrations at your facility and in-house calibrations in our climate-controlled lab. Whether you need accredited or traceable calibrations, the Kanawha Scales calibration team tailors our services to meet your specific quality standards.

ACCREDITED CALIBRATIONS

We perform ISO/IEC accredited calibrations on all instruments and gauges within our scope of accreditation, ensuring precise and reliable results that meet the highest standards.

COMPREHENSIVE SUPPORT

In addition to our ISO/IEC accredited calibrations, we offer troubleshooting, basic repairs, and regularly scheduled contractual maintenance services to keep your equipment performing at its best.

EASY ACCESS TO CALIBRATION RECORDS

We utilize a reporting system called CRS, giving our customers convenient online access to their current calibration certificates and complete certificate history helping you stay compliant and audit-ready.

24/7 SERVICE

Our dedicated lab team is available 24 hours a day, 7 days a week to handle emergency repairs, calibrations, and maintenance whenever and wherever you need us. We understand that downtime is costly, which is why we prioritize fast, reliable service to keep your operations running smoothly with minimal interruption.
